California Culinary Arts Institute began 02/02/2021

Today, more than ever, cooking has become one of the largest, strongest, and fastest growing industries. Here at California Culinary Arts Institute, we offer our students an intense culinary and baking curriculum, taking them all the way from basic to advanced level at a faster pace than schools with a one year program while giving them the same knowledge, and for a fraction of the cost.

Upon graduation, students receive a certificate of completion and **job placement assistance**. This kind of education gives the student the opportunity to enter the workforce at a faster pace with private schooling. Our school works with the more exclusive hotels, restaurants, resorts, country clubs, casinos, culinary staffing and as well American Culinary Federation for job placement.

Our school offers extraordinarily small classes of **no more than 10 students per class** which sets us apart from other culinary schools and provides lots of **hands-on training** and interaction with the instructor. Students are encouraged to be creative, ask questions and make comments about each lesson. Our **highly qualified chef instructors** are all certified and have teaching experience in addition to many years experience as leading chefs in the hospitality industry.

Classes are held at California Culinary Arts Institute, 1620 National Ave, San Diego, CA 92113, conveniently located close to I-5, Highways 125 and 94 in the Downtown San Diego area. Trolley and bus access are within a short walking distance of the school, and there is plenty of parking for those who drive.

We offer a choice of **two class times per day** for both Culinary and Baking in order to accommodate most anyone's schedule. Classes are held **five days per week** to ensure learning retention. By seeking education in our excellent Culinary and Baking school, students will learn how to prepare foods and how to present them with flair, in addition to learning recipes, garnishes, food costing, and menu development. Our state of the art facility offers students the proper way of cooking with **commercial gas equipment**, the only acceptable method of cooking in the hospitality industry, and includes a very large area just for the culinary kitchen and additional ovens and baking area for Baking and Pastry.

California Culinary Arts Institute does not have a pending petition in bankruptcy, is not operating as a debtor in possession, has not filed a petition within the preceding five years, nor has had a petition in bankruptcy filed against it within the preceding five years that resulted in reorganization under Chapter 11 of the United States Bankruptcy Code (11 U.S.C. Sec. 1101 et seq.).

Mission and Objectives

California Culinary Arts Institute's (CCAI) mission is to provide a high standard culinary, baking and pastry education to students in San Diego and nearby. Its goal is to provide a higher quality of knowledge in culinary and baking, pastry arts, and serving food in the San Diego community. In addition, the fact that the food industry is a serving industry, CCAI through its externship program is planning to offer financial support to both non-profit organizations to help people as well as animal shelters.

While the above objective and mission are fundamental of CCAI, we intend to ensure this institution is a successful and self-sustaining business, hoping to broaden its support over time.

The objective of the culinary program is to prepare students to be able to work successfully in a fine dining environment, including those found at hotels, restaurants, casinos, country clubs, and other establishments.

The objective of the baking and pastry program is to prepare students to be able to work successfully in baking facilities, including dessert shops, pastry shops, cake and wedding cake facilities, and candy/confectionary shops.

California Culinary Arts Institute Criteria

California Culinary Arts Institute sets a very high standard of education for our students with a broad-based curriculum which encompasses basic to advanced culinary skills and knowledge. We work with the more exclusive employers in the hospitality industry for job placement for our students because they have grown to trust the training and abilities of our graduates.

For the Culinary program our chef instructors use The Professional Chef by The Culinary Institute of America to guide students through our extremely comprehensive curriculum, beginning with the history of the food service industry, sanitation and safety all the way to international cuisine. The students are familiarized with all the commonly used tools and equipment in the industry as well as portion control, recipes, and food costing. Knife skills are honed throughout the course, as is the art of seasoning and basic cooking principles.

Our curriculum is designed to teach our students to create haut cuisine from scratch. They will become proficient in making stocks, sauces and all different kinds of soups. We teach them a thorough and complete understanding of all the different methods of cooking meats, poultry, fish and shellfish using the hands-on approach. They also learn how to select and cook vegetables and starches to complement the meal, in addition to making salads and salad dressings. Another phase of training is making sandwiches, hors d'oeuvres, canapés, relishes and dips, garnishes and food presentation.

Our Baking program uses Baking and Pastry by The California Institute of America. The course begins with sanitation and goes directly into yeast breads, rolls, and sourdough. The next step is breakfast pastries such as puff pastry, croissant, cinnamon snails and knots, and brioche. The students then move on to sugar dough, European style, and tea cookies and custards and tarts including flan, crème brûlée, pudding, custard tarts, lemon meringue tarts, and three different types of meringues. Cakes and sponge cakes are followed by piping and decorating. The final phase of schooling covers individual plated desserts and encourages individuality and creativity in presentation. Our students are also given demonstrations in sugar work and wedding cakes, flower making and chocolate creations.

Our greatest source of pride is our students' success in the food industry. We have a well-established reputation for excellence in training with the finer hotels, restaurants, country clubs and resorts in the area. Not only do our students know how to create wonderfully delicious culinary delights, but they also know how to present them beautifully. Some of our students leave our school and go into business for themselves, while others seek employment in fine dining establishments.

As a prospective student, you are encouraged to review this catalog prior to signing an enrollment agreement. You are also encouraged to review the School Performance Fact Sheet, which must be provided to you prior to signing an enrollment agreement.

The State of California established the Student Tuition Recovery Fund (STRF) to relieve or mitigate economic loss suffered by a student in an educational program at a qualifying institution, who is or was a California resident while enrolled, or was enrolled in a residency program, if the student enrolled in the institution, prepaid tuition, and suffered an economic loss. Unless relieved of the obligation to do so, you must pay the state-imposed assessment for the STRF, or it must be paid on your behalf, if you are a student in an educational program, who is a California resident, or are enrolled in a residency program, and prepay all or part of your tuition.

You are not eligible for protection from the STRF and you are not required to pay the STRF assessment, if you are not a California resident, or are not enrolled in a residency program.

It is important that you keep copies of your enrollment agreement, financial aid documents, receipts, or any other information that documents the amount paid to the school. Questions regarding the STRF may be directed to the Bureau for Private Postsecondary Education, 1747 N. Market Blvd. Suite 225, Sacramento, CA 95834, (916) 574-8900 or (888) 370-7589.

To be eligible for STRF, you must be a California resident or are enrolled in a residency program, prepaid tuition, paid or deemed to have paid the STRF assessment, and suffered an economic loss as a result of any of the following:

1. The institution, a location of the institution, or an educational program offered by the institution was closed or discontinued, and you did not choose to participate in a teach-out plan approved by the Bureau or did not complete a chosen teach-out plan approved by the Bureau.
2. You were enrolled at an institution or a location of the institution within the 120 day period before the closure of the institution or location of the institution, or were enrolled in an educational program within the 120 day period before the program was discontinued.
3. You were enrolled at an institution or a location of the institution more than 120 days before the closure of the institution or location of the institution, in an educational program offered by the institution as to which the Bureau determined there was a significant decline in the quality or value of the program more than 120 days before closure.
4. The institution has been ordered to pay a refund by the Bureau but has failed to do so.
5. The institution has failed to pay or reimburse loan proceeds under a federal student loan program as required by law, or has failed to pay or reimburse proceeds received by the institution in excess of tuition and other costs.
6. You have been awarded restitution, a refund, or other monetary award by an arbitrator or court, based on a violation of this chapter by an institution or representative of an institution, but have been unable to collect the award from the institution.
7. You sought legal counsel that resulted in the cancellation of one or more of your student loans and have an invoice for services rendered and evidence of the cancellation of the student loan or loans.

To qualify for STRF reimbursement, the application must be received within four (4) years from the date of the action or event that made the student eligible for recovery from STRF.

A student whose loan is revived by a loan holder or debt collector after a period of non collection may, at any time, file a written application for recovery from STRF for the debt that would have otherwise been eligible for recovery. If it has been more than four (4) years since the action or event that made the student eligible, the student must have filed a written application for recovery within the original four (4) year period, unless the period has been extended by another act of law.

However, no claim can be paid to any student without a social security number or a taxpayer identification number.
